

# QASIM RAZA

## FULL STACK WEB DEVELOPER

### ABOUT ME

Passionate and results-driven web developer with a strong foundation in both front-end and back-end technologies. Skilled in leveraging frameworks like **Vue.js** and **Laravel** to build dynamic, responsive web applications. Proven problem-solving and logic-building abilities, eager to contribute to a collaborative team environment.

### WORK EXPERIENCE

#### Junior Front-End Developer Intern - WindshieldHub Company Dec 2024 - May 2025

- Developed and maintained responsive user interfaces, ensuring cross-browser compatibility and optimal performance.
- Assisted in the integration of new features and enhancements, collaborating with senior developers to refine design specifications.
- Gained hands-on experience with modern front-end technologies and tools

### CERTIFICATIONS

#### ► Vue.js Certification - Udemy

**Instructor: Stephen Grider | July 2024**

- Udemy | Completed: July 2024
- Demonstrated proficiency in building dynamic and reactive user interfaces using Vue.js framework.

#### ► C++ Essentials 1 - Cisco Network Academy

**Instructor: Muhammad Faisal Saleem | Dec 2024**

- Cisco NetAcad | December 2024
- Acquired foundational programming concepts, including data types, control flow, functions, and object-oriented principles in C++.

#### ► Laravel Course - Udemy

**Instructor: Piotr Jura | Enrolled: 2025 - Ongoing**

- Udemy | Enrolled: 2025 - Ongoing
- Developing a strong foundation in back-end web development, including MVC architecture, database management, and API development with PHP and Laravel.
