---

## PROFESSIONAL SUMMARY

Full Stack Web Developer with strong experience in Laravel, PHP and Vue.js. Proven ability to design, develop, and maintain scalable web applications and RESTful APIs with clean architecture. Highly adaptable, detail-oriented and passionate about continuous learning and performance optimization.

---

## EXPERIENCE

**Self Employed** • Remote

Jan 2026 – Present

### Institutional Management System for a Medical College (Laravel)

- Implemented a 1-link fee setup via API for automated, secure payment processing.
- Optimized MySQL queries and fixed database extraction issues to ensure accurate institutional reporting.
- Built a custom mailing system for individual and bulk notifications.
- Developed Excel import/export modules for attendance, exam schedules, and payroll.

### Multi-Tenant School Operations Platform (Laravel)

- Diagnosed and fixed image responsiveness and UI layout issues across the platform
- Developed centralized records management system supporting multiple school campuses
- Built payroll management module for staff across different campus branches
- Implemented import/export of payroll, attendance, and administrative records

### Web Developer (PHP / Laravel)

Sep 2025 – Dec 2025

**Shayan Pakistan** • Lahore, Pakistan

- Developed and maintained Laravel-based web applications for internal business use.
- Built RESTful APIs powering front-end interfaces and third-party integrations.
- Designed MySQL database schemas and optimized queries for improved performance.
- Implemented authentication systems and role-based access control (RBAC).

### Frontend Developer

Apr 2025 – Sep 2025

**WindshieldHUB.com** • United States (Remote)

- Developed complex, responsive UI components using Vue.js and Bootstrap.
- Collaborated with UI/UX designers to translate wireframes into production-ready code.
- Optimized application speed by refactoring legacy code and improving component reusability.

### Frontend Developer Intern

Dec 2024 – Apr 2025

**WindshieldHUB.com** • United States (Remote)

- Learned and applied Vue.js best practices in a professional remote environment.
  - Contributed to UI development tasks and component library maintenance.
- 

## KEY PROJECTS

- Task Management System (Vue.js + Vuex) CRUD operations, reusable components
- Detailed Blogging System (PHP) Secure content management
- Media Research & Critical Analysis System (PHP)
- Institutional Management System for a Medical College (Laravel)
- Multi-Tenant School Operations Platform (Laravel)
